

Art & Life: The Spirit of Haiti

In January, 2012, Palm Beach State College will present the exhibition, “Art & Life: The Spirit of Haiti.” This exhibition will show an exciting cross-section of art and craft done by artists of Haitian descent. In the aftermath of the 2009 earthquake, Haiti continues to rebuild, but its people continue to live another day with the hope of a better life. The family and national ties between the Haitian people, both here and elsewhere in the U.S. are strong and resilient. Through artists we can see this strength of character, and love of life. Hence, comes our exhibition title, “Art & Life: The Spirit of Haiti.” **Exhibition dates: Jan 5th - February 10th, 2012**
